News about corrosion and the corrosion industry produced quarterly for members of NACE International in the Calgary area.

29th Annual Golf Tournament and Dinner Stylish and Fun...!

180 golfers participated in the August 19 NACE Calgary annual golf tournament at Elbow Springs Golf Course. It was a beautiful sunny day filled with networking and fun, ending with a delicious dinner and recognition of winning golf teams, sponsors, and NACE service award winners.

Thanks to all of our great sponsors and our volunteers. We couldn't do this tournament without them. Please see page 6 for a list of our sponsors.

And **click here** to see more golf photos!

A very happy winning team...

Message from the Chair

I hope you have had a good summer enjoying the weather when it wasn't thunder-storming.

Thankfully we had great weather and a great turnout on the day of the annual NACE Golf tournament this year.

Thanks to everyone who

participated and/or sponsored the event. Since the spring annual dinner was again combined with the golf tournament, we were able to honour a number of membership service award winners after enjoying a delicious meal.

A big thank you to all the members who filled out the 2016 annual survey. We received a record number of completed surveys, and there were a lot of really good suggestions and ideas which we will use to guide our upcoming events.

We have a couple of events planned for this fall including a technical lunch on October 21 and a unique technical day on November 25 that will be held at Canada Olympic Park (COP).

The October 21 technical lunch will feature two speakers who will discuss welding carbon steel materials. The event at COP will include a half day introduction to corrosion course in the morning, followed by a technical tradeshow in the afternoon focused on managing aging infrastructure in the current economic climate. The venue is the Olympic Museum so there will also be an opportunity to tour the museum during breaks. This day is geared towards engineers, technicians, and managers so that everyone can gain an understanding of managing corrosion both at a basic level and in a cost conscious way.

Unfortunately we had to cancel the fall PCS 1, PCS 2, and Basic Corrosion courses due to low registration numbers. We are planning more courses for the spring and are looking at other ways of adding training value for a lower cost to members, like the half day basic corrosion course planned for November.

Upcoming Events

NACE Northern Area Western Conference 2017 *Surviving with Integrity*

NACE Northern Area Western Conference (NAWC) takes place at the Shaw Conference Centre in Edmonton next year, from February 13-16.

The conference theme is *Surviving with Integrity* and it will focus on topics related to Corrosion in Oil and Gas Pipeline Systems and Oil Sands Operations/Facilities.

Exhibitor booth space is currently over 60% sold. There is still an opportunity to book a booth, so please **click here** for more details on the remaining spaces available.

If you are interested in presenting at the conference, you will be pleased to know that the deadline for submitting abstracts has been extended to October 31, 2016. [Click here](#) to visit the conference webpage and follow the links to the Call for Abstracts for information on the submission process.

NACE Calgary October Technical Lunch Challenges of Welding Carbon Steel Materials

- Friday, October 21, 2016
- 11:30 AM - 1:30 PM
- Calgary Petroleum Club
- Members: \$30
- Non-Members: \$40
- Students: \$10

Don't miss this interesting and informative networking and learning opportunity featuring two great speakers:

- Barry Messer is Technical Director and Senior Fellow with Fluor Corporation. Barry will provide an update on the findings and issues related to low toughness in bon steel and low temp carbon steels and what ASTM and ASME are doing to mitigate this serious issue.
- Ali Abari, Ph.D, P.Eng is a materials and welding engineer with IRISNDT. Ali will review the impact of microalloying elements in welding of carbon steel materials intended for sour service.

Did you know that your membership includes...

Education:

NACE International partners with corrosion industry leaders and experts to offer education programs designed to broaden your knowledge base and keep you current with the latest technology.

Research:

Download unlimited NACE resources such as our globally recognized standards, reports, and papers.

Events:

From hosting industry and technology-specific conferences, seminars, and exhibits, to local area events and section meetings, NACE International connects our global audience on all levels.

Network:

Take advantage of a global network of corrosion professionals through our online Member Forum, or by attending and a NACE or Section Events.

Shape Industry Standards:

Get involved by joining a NACE Technical Committee and volunteer your technical knowledge in developing globally recognized and mandated corrosion-related standards and reports that impact your industry.

Publications:

Receive free subscriptions to Materials Performance, CoatingsPro, NACE Corrosion Press, Inspect This, Stay Current and more.

Career Opportunities:

NACE connects members with potential employers through the NACE Career Center and through NACE members who are looking for talented professionals.

Discounts:

Receive discounted member pricing on NACE Institute recertification fees, Education courses, and corrosion resources and publications.

Recognition:

NACE International is globally recognized as the premier authority for corrosion prevention and control solutions due to the contributions of our members. Join today and experience all the benefits of NACE membership.

GET INVOLVED

Be a volunteer and reap the rewards

The success of NACE International is dependent on member volunteers. They are integral to the success of NACE products and services, from technical reports and standards to committee members and the Board of Directors.

NACE International's new **Volunteer Manager** gives members a way find a position that fits your personal interests and skills, while supporting the goals of the association. **Sign up** to become a NACE volunteer today.

Here are some of the latest volunteer opportunities:

LAA (Latin America Area) Newsletter Editor

NACE Latin America Area (LAA) Newsletter is to be published initially twice a year, in January and July. This opportunity is a one-year commitment, to organize the collection of documents and graphics from members through Section Officers and from any working Committee; encourages members to write and share ideas and experiences and keep contributors aware of deadlines to get the newsletter out on time. Needs to establish a timeline for each newsletter (2) and keep contributors informed.

Tuesday, November 01, 2016 - Friday, December 15, 2017

Online Opportunity

Small Task (4-8 hours)

Moderator for Member Online Forum

The NACE International Member Online Forum is a platform open to all NACE members looking to collectively shape and influence the corrosion industry among their professional peers, while also encouraging international and cross-industry networking opportunities. The Forum requires several online moderators to help foster conversation, answer questions, and act as a liaison between users (NACE members) and NACE Staff. Volunteer Moderators will serve 4 month terms, with a maximum of two consecutive terms.

Thursday, November 03, 2016 - Friday, March 03, 2017

Online Opportunity

Small Project (up to 40 hours total)
