News about corrosion and the corrosion industry produced quarterly for members of NACE International in the Calgary area.

CORROSION 2016 Advance Program

I am pleased to introduce the **Advance Program for CORROSION 2016**, your guide for navigating NACE International's 71st annual conference located in Vancouver, British Columbia. Our March 2016 conference will offer the broad spectrum of corrosion-related technical, research, educational, public awareness, and networking activities that you and the corrosion industry have come to expect, as well as exciting new attractions specific to this conference.

More than 200 technical and administrative meetings will be held throughout the week, enabling members to work on standards and reports, exchange technical information, and manage association business. The **technical program includes 41 symposia**, and will feature paper presentations on a wide range of corrosion topics. New this year are symposia focused on corrosion in oil sands, electrochemical corrosion control of steel in concrete, mechanisms of localized corrosion, oil and gas inhibitors for harsh environments, and more.

Special forums will address such topics as the need for a safety culture in pipeline work, innovations and advances in the water industry, and NIICAP, the new NACE International Institute Contractor Accreditation Program. Attendees are invited to a panel discussion where pipeline operators will address key challenges and opportunities they are facing around the world, and the **annual women in corrosion networking event** will be in the format of a workshop on engaging women in leadership....

Jim Feather, 2015-2016 NACE President

Message From the Chair

Happy New Year to all NACE Calgary members!!!

Around 70 people attended the **Pressure Vessel Integrity Tradeshow** on November 26.

We are seeing a remarkable turnout for the low cost technical lunches and half a day tradeshows. So NACE Calgary is planning on hosting more technical talks and satellite seminar at a discounted rate in 2016.

The next technical talk is our January 29 technical lunch event on "Coating Quality and Requirements". Registrations are going well so be sure to register soon.

Our committee has worked with Northern Area and Houston to provide corrosion courses of interest to Calgary members in 2016. These include:

- Cathodic Protection 1 – January 24-29, 2016 - Full
- Cathodic Protection 1 – January 31 – Feb 5, 2016 - Full
- Cathodic Protection 2 – February 14-19, 2016 – Full

Also, NACE Calgary is offering Internal Corrosion for Pipelines-Advanced from April 4-8, 2016. A link to more information and registration is further along in this newsletter.

We have decided to update the look and usability of the NACE Calgary website and we expect it to be online soon.

NACE Calgary Section along with other Canadian sections are hosting a kickoff session at CORROSION 2016 on Saturday, March 5, from 7 to 9 pm at the Vancouver Convention Centre. We will welcome you to Vancouver with live entertainment, Canadian appetizers, and drinks. Please join us!

Student Section News

Student Section held popular November session

NACE Calgary Student Section hosted a session on November 27 for around 30 young professionals and students from the University of Calgary and SAIT. Frank Hornsby, President of Cormetrics, talked about “Corrosion Inhibitors and Pipeline Failure Analysis”. Everyone enjoyed his great presentation and the following discussion.
